HTML - BODY TAG

1. Write an HTML code to create a web page about “The Internet” with top and left margins as 100,200 and background colour= blue, and text colour =red using a body tag.

AIM:

To create the web page using the body tag and its attributes.

CODING:

```
<HTML>
<HEAD>
<TITLE> INTERNET </TITLE> </HEAD>
<BODY text="RED" bgcolor="blue" leftmargin="200" topmargin="100">
<H1><CENTER>INTERNET</CENTER><H1>
<H4> WHAT IS INTERNET<H4>
<P>The internet is a global network of interconnected computers that allows for the sharing of information and communication. <BR>
It has revolutionized the way we connect and interact with each other. <BR>
Through the internet, we can access websites, send emails, participate in social media, and much more. <BR>
It has opened up endless possibilities for education, entertainment, and business. With its vastness and accessibility, <BR>
the internet continues to shape our world in numerous ways, connecting people across continents and bridging the gap between cultures. <BR>
It serves as a powerful tool for communication, collaboration, and the exchange of ideas. <BR></P>
<BR>
<H4> WHAT ARE THE USES OF INTERNET</H4>
```

<P>The internet has also given rise to various digital platforms and services that have become integral parts of our daily lives.

Streaming services like Netflix and Spotify have transformed how we consume media, allowing us to watch movies and listen to music on-demand.

E-commerce platforms such as Amazon and eBay have revolutionized the way we shop, offering a wide range of products that can be delivered right to our doorstep.

Social media platforms like Facebook, Instagram, and Twitter have connected us with friends, family, and even strangers across the globe,

providing a space for sharing and interacting. Additionally, cloud computing has made it possible to store and access data remotely,

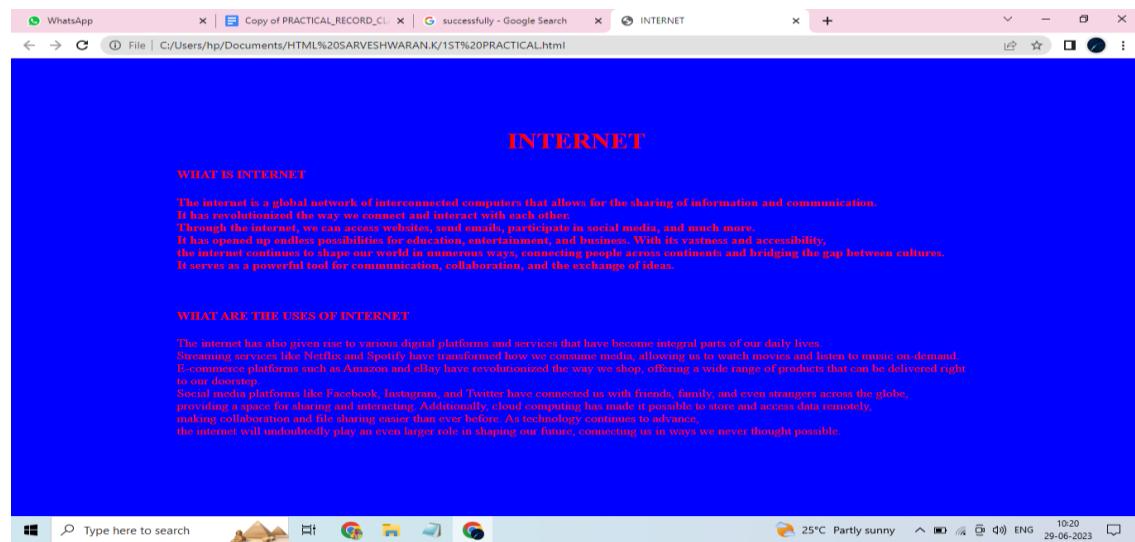

making collaboration and file sharing easier than ever before. As technology continues to advance,

the internet will undoubtedly play an even larger role in shaping our future, connecting us in ways we never thought possible.

HTML – PARAGRAPH TAG

2. Write a HTML code to display a paragraph about CLIMATE CHANGE with a background picture and use other attributes of body tag and paragraph tag and formatting tag with attributes.

AIM:

To create the web page using paragraph and formatting tag and its attributes.

CODING:

```
<html>
<Head><Title>CLIMATE CHANGE</Title></Head>
<Body background="https://1.bp.blogspot.com/-sTxAHAXirGM/WVbAe2098nI/AAAAAAAABENs/_I5sYMYgLOUzaIE7FfF4qdGX-hoAkq9SgCLcBGAs/s1600/Blog_20170624_113552.jpg">
<H1><CENTER>CLIMATE CHANGE</CENTER><H1>
<H4>WHAT IS CLIMATE CHANGE AND REASONS FOR IT</H4>
<P>Climate change is the long-term alteration of temperature and typical weather patterns in a place. <br>
It is caused by greenhouse gases such as carbon dioxide, methane, and nitrous oxide, which trap heat in the Earth's atmosphere. <br>
The consequences of climate change are far-reaching and include rising sea levels, extreme weather events, and the loss of biodiversity. <br>
To mitigate climate change, it is crucial to reduce greenhouse gas emissions, transition to renewable energy sources, and adopt sustainable practices. <br>
Continued efforts are needed to address this global challenge and ensure a sustainable future for our planet. <br></p>
<p>The impacts of climate change are already being observed around the world. Polar ice caps are melting at alarming rates, <br>
```

leading to rising sea levels and the loss of critical habitats for numerous species. Heatwaves and droughts are becoming more frequent and intense,
 causing agricultural disruptions and water scarcity in some regions. Extreme weather events, such as hurricanes and wildfires, are also on the rise,
 resulting in devastating damages to communities and infrastructure. Additionally, ocean acidification is threatening marine ecosystems and the
 livelihoods of those who depend on them.
</P>

<P>To combat these challenges, international agreements like the Paris Agreement have been established to encourage global cooperation in reducing emissions and adapting to the impacts of climate change. Investments in renewable energy technologies, such as solar and wind power, are becoming increasingly important to reduce our reliance on fossil fuels. Sustainable land management and conservation efforts are also critical in preserving ecosystems and protecting vulnerable species.

WEB PAGE – ABOUT MY CITY

4. Write the HTML code to design the web page for our City Coimbatore considering the specifications as given below:

- The background color of the page should be yellow.
- Heading 'Our City: Coimbatore' should be the first level of the heading
- Formatting style for the paragraph
 - Font Size: 15
 - Font Name: Times New Roman
 - Color: Red
- About City – using Definition List.
- Facts should be written with the help of the unordered list.

AIM:

To create the web page using body, heading, formatting, definition, and unordered list tags.

CODING:

```
<html>
<head><title>Coimbatore city</title></head>
<body bgcolor="yellow" font-face="Times New Roman" size="15" text="red">
<h1><center><u>OUR CITY COIMBATORE</u></CENTER></H1>
<h4>About City</h4>
<dl>
<dt>Coimbatore city is located in the state of Tamil Nadu, India. </dt>
<dd>It is known as the "Manchester of South India" due to its flourishing textile industry. </dd>
<dt>The city is surrounded by the Western Ghats and is blessed with picturesque landscapes. </dt>
```

<dd>Major attractions in Coimbatore city include the Marudamalai temple, Esha, Siruvani Waterfalls,

and the bustling marketplaces like RS Puram and Gandhipuram.</dd>

<dt>The pleasant weather and rich culture makes coimbatore city an ideal destination for tourists. </dt>

<dd>In addition, the city is also home to several educational institutions and is a major hub for healthcare services. </dd>

<dt>As the second-largest city in Tamil Nadu Coimbatore city continues to thrive and develop in various sectors. </dt>

<dd>Coimbatore city offers a vibrant and diverse lifestyle to its residents and visitors. With a population of over a million people</dd>

</dl>

<h4>FACTS ON COIMBATORE CITY</H4>

A few hill stations, including Ooty, Valparai, Munnar, Anaikatti, Neliampathy, and Kotagiri, are located around the city of Coimbatore. You'll be mesmerised by the natural splendour once you leave Coimbatore. The main attractions include the several tea farms near Valparai, the Neliampathy Hills, Monkey Falls, and Aaliyar Dam.

Chennai and Coimbatore are software and hardware sister cities. As we all know, Chennai is a hardware city; nevertheless, Coimbatore has emerged as the Tamilnadu hardware capital, and this fact seems to be accurate. It is located and connected to all major cities in the South that are within 5-8 hours' drive, such as Chennai, Bangalore, Cochin, and Mysore. As a result, it was known as the hardware industry hub of South India.

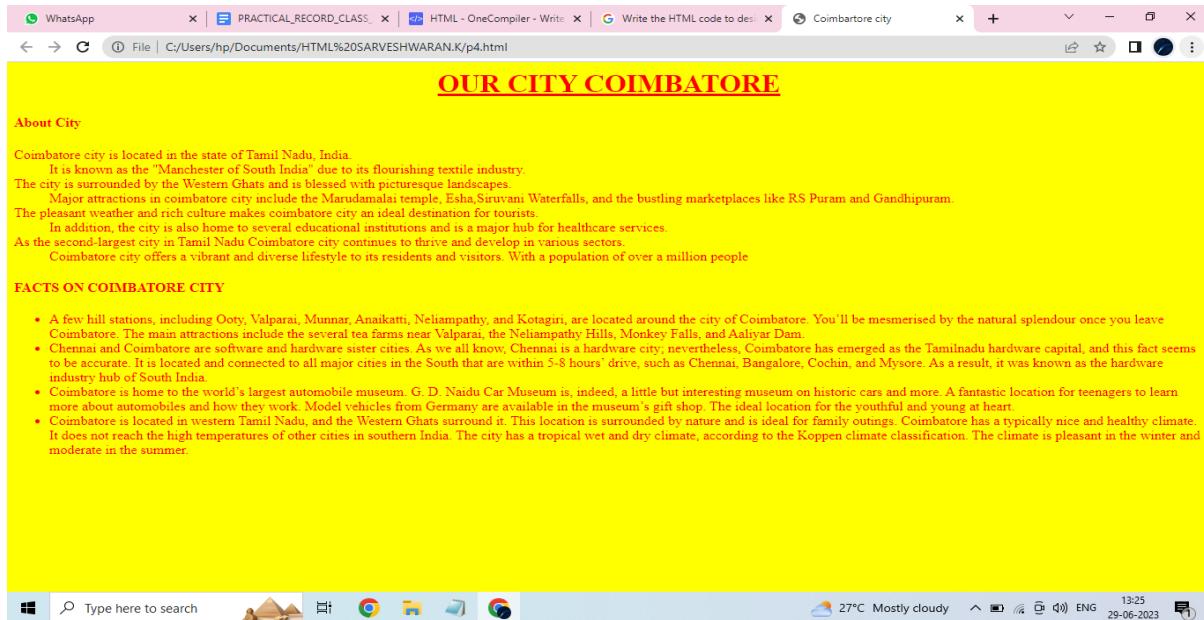

Coimbatore is home to the world's largest automobile museum. G. D. Naidu Car Museum is, indeed, a little but interesting museum on historic cars and more. A fantastic location for teenagers to learn more about automobiles and how they work. Model vehicles from Germany are available in the museum's gift shop. The ideal location for the youthful and young at heart.

Coimbatore is located in western Tamil Nadu, and the Western Ghats surround it. This location is surrounded by nature and is ideal for family outings. Coimbatore has a typically nice and healthy climate. It does not reach the high temperatures of other cities in southern India. The city has a tropical wet and dry climate, according to the Koppen climate classification. The climate is pleasant in the winter and moderate in the summer.

WEB PAGE- MY COUNTRY INDIA

6. Write the HTML code to design the above-shown web page considering the specifications given below:

- The background color of the page should be yellow.
- Heading 'Our Country: India' should be the first level of heading
- The image named 'India.jpg' should be placed at the center.
- Formatting style for the paragraph
 - Font Size: 5
 - Font Name: Times New Roman
 - Color: Red
- Superscript and subscript tags should be used wherever required.
- Facts (as shown in the above web page) should be written with the help of the unordered list.

Our Country : India

India is spread over a large geographical area. In terms of area, it is the 7th largest country while in terms of population, it is the 2nd largest country in the world. Some facts about India are as follows

- Area : Approx 3.28 million sq. km
- North to South extension : Approx 3,200 km
- East to West extension : Approx 2900 km

AIM:

TO CREATE A WEB PAGE ABOUT OUR COUNTRY.

CODING:

```
<html>

<head><title>INDIA</title></head>

<body bgcolor="yellow" text="red" font-face="Times New Roman" size="5">

<h1><CENTER>
```

OUR COUNTRY: INDIA

</CENTER></h1>

<center></center>

CSS INLINE STYLE

13. Write a HTML code to link CSS Inline styles to display about the topic and content related to “Cyber Safety”.

AIM:

To create a web page with CSS inline style.

CODING:

```
<html>
<head>
<title>Cyber Safety</title>
</head>
<body style="background-color:#0289A7;">
<div style="text-align center; background-color:#6D0999; padding: 20px;">
<h1 style="color:grey;">Cyber Safety</h1>
</div>
<div style="margin: 20px; padding: 10px;">
<p style="font-size: 18px; line-height: 1.6;">
```

Cyber safety, also known as online safety or internet safety, is the practice of protecting yourself, your information, and your devices while using the internet. It involves taking precautions to ensure your online activities are secure and that you are not vulnerable to various online threats, such as cyberattacks, identity theft, and online harassment

Here are some essential tips for staying safe online:

```
</p>
<ul>
```

```

<li style="font-size: 16px;">Use strong, unique passwords for your online accounts. </li>

<li style="font-size: 16px;">Regularly update your software and antivirus programs. </li>

<li style="font-size: 16px;">Be cautious when sharing personal information online. </li>

<li style="font-size: 16px;">Avoid clicking on suspicious links or downloading files from untrusted sources. </li>

<li style="font-size: 16px;">Educate yourself about common online scams and phishing techniques. </li>

</ul>

<p style="font-size: 18px; line-height: 1.6;">

    By following these guidelines and being vigilant while using the internet, you can significantly reduce the risk of falling victim to cyber threats and ensure your online experience is safe and secure.

</p>

```

OUTPUT:

The screenshot shows a Microsoft Edge browser window with the title "Importance of Technology in Education". Below the title, a section titled "Advantages and Disadvantages" contains a table. The table has two columns: "Advantages" and "Disadvantages". Both columns have five rows each, corresponding to the numbered points listed below the table.

Advantages	Disadvantages
1. Improved Access to Information	1. Distraction and Overuse
2. Interactive Learning	2. Technical Issues and Glitches
3. Personalized Learning	3. Privacy and Security Concerns
4. Collaboration and Communication	4. Inequality in Access
5. Engagement and Motivation	5. Potential for Social Isolation

Below the table, the Windows taskbar is visible, showing various pinned icons and system status information like battery level, signal strength, and the date/time (11:07 AM, 10/9/2023).

RESULT:

The above coding is executed successfully.
